THE ABCDE'S

By [Name]

A: UNIVERSAL
 Children need special rights because they need extra protection that adults don't.
 The UNICEF is an international document that sets out all the rights that children have. A child is defined in the Convention if their age is less than 18 years.

B: BIRTH
 Children are born with rights, no matter your skin color, gender, etc.
 You don't see them at one point of your life.

C: CHILDREN
 Children can't be taken care of because they are weak, so the very fact of their existence, they are vulnerable and even **abused**.
 Children can have rights from you & other.

D: DIVERSITY
 Children have to have rights, & they are with them; that are **different** for having rights. **Even** if a child **is** **different**, they still **have** rights and it **can't** be **taken** away from them.

Although Every child NEEDS Rights, not all of them are them. Some countries, including the USA, has not ratified the convention. The convention is the not widely ratified human rights treaty in the world?

E: EQUALITY
 Human rights are universal and indivisible. This means that all of children **have** equal standing, and not a single one is more **important** than the other. **Equality** must be human rights **for** all **and** **not** **as** **subject** **to** **the** **state**.
